## PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience in building responsive web applications using MERN/PERN stacks and Next.js. Skilled in project coordination, API integration, and product development. Passionate about leveraging data analytics and secure web technologies to build scalable, intelligent systems.

## WORK EXPERIENCE

### Junior Full Stack Developer and Tech Support

June 2025 – Present

#### Intern Nepal Recruit Nepal

- Designed and developed responsive frontend interfaces using React and Tailwind CSS.
- Integrated RESTful backend APIs and implemented user-facing features across full-stack.
- Participated in project planning meetings with partner company to coordinate development tasks.
- Assisted with basic deployment tasks including hosting, domain setup, and configuration.

### Project Management and Tech Support Intern

Aug, 2024 – Jan, 2025

#### Intern Nepal Recruit Nepal

- Directed a recruitment management CRM project over 6 months, managing various aspects from initiation to delivery. Utilized Trello for task progress tracking, organizing workflows, and managing team assignments effectively.
- Utilized Agile methodologies to manage project progress, including sprint planning, execution, and retrospectives to ensure timely delivery of MVP.
- Developed and maintained project-related documentation, including Project Charter, Meeting Minutes, to support project transparency and knowledge sharing.

### Customer Success Representative Intern

Feb, 2024 – Jul, 2024

#### ING Skill Academy

- Supported customer relationships by addressing inquiries and assisting with onboarding.
- Gathered customer feedback and collaborated with the team to enhance satisfaction and retention.

## SKILLS

**TECHNICAL SKILLS:** JavaScript, React.js, Node.js, Express.js, Next.js, MongoDB, SQL, Tailwind CSS

**SOFT SKILLS:** Communication, Problem Solving, Time Management, Collaboration, Adaptability

**Tools & Technologies:** Communication Git, GitHub, Postman, CV Code, Figma

## PROJECTS

### Recruit Nepal – AI-Powered Recruitment Platform

- Contributed to the design, development, and deployment of a live recruitment and internship platform currently used by employers and candidates across Nepal.
- Developed core frontend architecture using Next.js, TailwindCSS, and ShadCN UI, and assisted in building secure backend APIs with Node.js and Express.

Platform received national recognition and funding through Shark Tank Nepal, representing innovation in Nepal's recruitment tech ecosystem.

### Realtime Chat App

- Developed a full-stack realtime chat application using React, Express, and Socket.io with typing indicators, sound notifications, direct messaging.
- Integrated Zustand for global state management and deployed the app on a live server.

[Live Demo](#) [Github](#)

### Google Drive Clone

- Built a Next.js and Appwrite-based cloud storage platform with file upload, folder management, and shareable links
- Designed a responsive UI using TailwindCSS and implemented user authentication with secure file access control.

[Live Demo](#) [Github](#)

### Recipe website

- Developed a full-stack recipe website using the MERN stack with personalized recipe recommendations, advanced search filters, and curated Nepali/international dishes.
- Implemented secure user authentication, role-based access, and premium subscriptions with gated content and payment integration.
- Built e-commerce functionality for purchasing ingredients directly from recipe pages, with shopping cart and checkout features.
- Created admin and vendor dashboards for managing users, recipes, blogs, and promotional banners with date-based activation.
